PROFESSIONAL SUMMARY

Cloud Certified DevOps Engineer with 2.5 years of experience in infrastructure assessment, continuous delivery, and infrastructure evolution. Skilled in leadership, client-site expertise, process establishment, and developing technical roadmaps to meet business requirements. Proven ability to deliver innovative solutions with 100% adherence to client needs.

CERTIFICATIONS

- AWS Certified Cloud Practitioner.
- AWS Certified Solutions Architect – Associate.
- Aws Devops certified professional.
- ITIL® Foundation Certificate in IT Service Management.

CORE EXPERTISE

DevOps practices, Linux administration, Cloud services, Troubleshooting, Infrastructure automation, Cloud platforms (IaaS), Virtualization platforms, Application hosting technologies, Software delivery teams, DevOps philosophies, Agile methods, Infrastructure as Code (IaC), CI/CD pipelines, Monitoring systems, Security concerns, Network security, Software supply chain security.

TECHNICAL SKILLS

Cloud Technologies: AWS (IAM, EC2, S3, VPC, RDS)

Containerization and CI/CD: Docker, Kubernetes, Jenkins

Monitoring and Logging: Prometheus, Grafana

Configuration Management: Ansible

Infrastructure as Code: Terraform

Operating Systems and Other Tools: Linux, Git, GitHub, Bash, Maven

EDUCATION

Master's Degree in Computer Science, P.S.A College, Dharmapuri, Tamil Nadu (2022 – 2024)

Bachelor's Degree in Computer Science, Don Bosco College, Dharmapuri, Tamil Nadu (2019 – 2022)

WORK EXPERIENCE

One Data software solutions | DevOps Engineer

JULY 2025 – AUG 2025

- Monitored critical system metrics, swiftly identified high-impact incidents, engaged stakeholders, and followed incident management protocols to restore services while preventing potential outages.
- Facilitated resolution of major incidents via bridge calls, executed escalation procedures, communicated timely updates to leadership, and ensured adherence to defined SLAs.
- Conducted post-incident reviews, documented root cause analyses, maintained incident response protocols, ensured closure compliance, and trained stakeholders through engaging brown bag knowledge-sharing sessions.

WORK EXPERIENCE

DXC TECHNOLOGY | Analyst III Infrastructure Services

AUGUST 2022 – JUNE 2024

- Collaborated with cross-functional teams, implementing DevOps projects that improved infrastructure efficiency by 35%, reducing deployment time by 40% across multiple environments.
- Developed and deployed CI/CD pipelines, automating 70% of manual processes, significantly enhancing delivery speed and reducing human errors by 45%.
- Ensured platform security by addressing vulnerabilities, implementing secrets management, and reducing security incidents by 30% through continuous monitoring and proactive threat mitigation.
